CAREER OBJECTIVE

Motivated Computer Science Engineering student with a passion for technology and innovation. Strong problem-solving abilities, a willingness to learn, and an interest in applying technical knowledge to real-world challenges. Eager to continuously develop new skills, contribute to impactful projects, and grow in a collaborative environment.

ACADEMIC CREDENTIALS

- Pursuing **Bachelor of Engineering in Computer Science and Engineering** at **Dr. N.G.P Institute of Technology** with a **CGPA of 8.49** (till 5th semester).
- Completed **Senior Secondary Education (Class XII)** at **Jawahar Navodaya Vidyalaya, Mahe, Puducherry** with **81.8%** in **2022**.
- Completed **Secondary Education (Class X)** at **Jawahar Navodaya Vidyalaya, Mahe, Puducherry** with **85.6%** in **2020**.

MAJOR PROJECTS

Project entitled "CricAuctionIPL – Real-Time IPL Auction Simulator" in 2025

Technologies Used: React, TypeScript, Tailwind CSS, Firebase, Node.js

Developed a real-time IPL auction platform that allows users to participate in live multiplayer auctions and AI-powered mock auctions. The project aimed to simulate the IPL player auction process with features such as live bidding, team management, and administrative controls. The platform provided an interactive and realistic auction experience for users.

Project entitled "CoLiviMates– Roommate & Housing Finder Platform" in 2025

Technologies Used: React, JavaScript, Vite, Tailwind CSS, PostgreSQL, Node.js

Developed a web platform to help users find compatible roommates and co-living spaces. The objective was to simplify the housing search process through secure authentication and role-based dashboards. The system improved accessibility and convenience for users seeking shared accommodation.

Project entitled "Sensible – Touch-Activated Doorbell" in 2024

Technologies Used: Basic Electronics, Sensors, Circuit Design

Designed and implemented a touch-activated doorbell system with a focus on accessibility, hygiene, and affordability. The objective was to provide an alternative to conventional doorbells by reducing physical contact and improving ease of use. The project demonstrated a simple and cost-effective solution for everyday applications.

INTERNSHIP

- Internship on Full Stack Development at Accent Techno Soft in 2025 for 15 days.

AREAS OF INTEREST

- Artificial Intelligence
- Web Development
- Designing
-
- Full Stack Development
- Software Engineering
- UI/UX Design

TECHNICAL QUALIFICATIONS

- Programming Languages – Java ,JavaScript ,TypeScript ,SQL
- Web Technologies – HTML, CSS, React, Node.js, Vite, Spring Boot
- Databases – PostgreSQL ,Firebase , MySQL
- Tools & Platforms - Git, GitHub, VS Code, IntelliJ

CERTIFICATIONS

- NPTEL – Introduction to Internet of Things (Elite + Silver)
- HackerRank – Java Certificate, Problem Solving Certificate, SQL Certificate

EXTRA-CURRICULAR ACTIVITIES

- Active NSS Volunteer (2023–2025)
- Participated in HackXelerate Hackathon at KPRIET
- Active participant in cultural and technical events
- Member of college sports and music activities

ACHIEVEMENTS

- Winner (Band Performance) – TechFest'25, Dr. N.G.P Institute of Technology
- Winner – IPL Auction Event, Eswar College
- Semi-Finalist Performer in Solo & Group Singing – Covai Thiruvizha 2024
- Winner – Football Intramural College Events
